Your pies will be delicious

whenever you use Cottolene for shortening. It gives just the right crispness and flakiness to the crust and enhances the flavor of the filling.

Be sure to use Cottolene the next time you make pies and notice how nicely it works in with the flour—also how delicious your pies will be.

ARMY OF MILLIONAIRES PROPOSED AS NATIONS FIRST LINE OF DEFENSE

Charles W. Ervin, Socialist candidate for United States Senator from Pennsylvania, who delivered an address last night at Tulsa, told his audience that he has a perfectly splendid little plan to end all wars. He offered the plan to President Wilson, he said, but the President has not yet made use of it. Ervin expressed it thus:

"Patriotism is the love of country. So, if I would have President Wilson

take the lot of the 200,000 people who own most of this country, that lot, by the way, is the income tax law, and from it form an army of 100,000 men who own most of the land. It would, of course, be headed by John D. Rockefeller Jr. Then, if we're threatened with war send this army to the front first, for we must have our bravest fighters in the first line of defense.

"We will then have lost much of the horror of war, if we ever have a war. For, if Mr. Rockefeller is killed, he will not leave a starving wife and children; those people who are now working to pile up wealth for Mr.

Rockefeller will continue to pile it up for those dependents whom he leaves. We will also relieve the country of much of the expense of a war, as there won't be certainly not delay to take the \$15 a month of a soldier's wage. We will have no pensions after the war for dependent widow and children.

If, for instance, we go to war with Mexico, we might send in first those 100 men of the United States who own Mexico. They would fight cheerfully, I am sure, for they would be fighting to retain possession of that which they have taken from the poor Mexicans."

by fire and large quantities of corn, as well as people of all classes were carried away, partly by violence and partly by base perfidy. The prettier girls were driven into the Romanian trenches, where they were assaulted and then murdered, especially in the neighborhood of Ialovita. Women and children were locked up in houses and then either burned to death or shot. It has been proved that the Romanians ravaged the country, on the direct command of their leaders.

"Before the declaration of war, 25,000 people and the same number of carts filled with food were taken from Dobruja.

Russians Bear Big End of Battle

LONDON, Oct. 5.—With rain still keeping the operations of the Austro-Hungarians and the Germans on the west front in France, mainly to artillery duty, interest in the world war has been transferred to the Eastern Hungarian and Balkan fronts, on all of which heavy fighting is in progress.

The fierce battle which has gone on for several days west of Lutsk in Volhynia, is still without decisive result for either side while in Galicia along the Zlota Lipa river where the Russians are trying to push through to Lemberg the Austro-German forces are still holding back the Russians. Berlin, in its official account of the fighting near Lutsk says the Russian dead number thousands. Bucharest is still silent with regard to the operations of Romania's troops which crossed the Danube river between Tzschirnau and Tzschirau and invaded Bulgarian territory. But Berlin says these men have been hunted with fury in the rear of being encircled by the forces of Field Marshal Von Mackensen.
